

The Superintendent shall confer with the chief school officers of the Broome-Delaware-Tioga BOCES region and with appropriate district staff members, as well as with guidelines issued by the State Education Department in the process of developing the school calendar. The school calendar shall make provisions for the opening and closing of school, days of session, length of vacation periods, conference days and attendance periods. The calendar shall provide for a proper coordination of the BOCES program with all BOCES component school districts.

Each year the Superintendent shall submit the proposed calendar for the ensuing school year to the Board for approval. Following its adoption by the Board, the school calendar shall be distributed to all staff members, parents of district students and others who may request it.
